Director – Internal Audit

As chief internal audit executive of AuditAsia, a shared service for the member centres, the Director is responsible for developing and implementing an audit program that conforms to the standards published by the Institute of Internal Auditors. The position will be hosted at the headquarters of one of the AuditAsia member Centres (Colombo, Sri Lanka; Bogor, Indonesia; or Los Baños, Philippines).

Responsibilities

- Implement a risk based internal audit program approved by the relevant centre Board, and coordinating the internal and external audit efforts to ensure adequate and cost-effective risk based audit coverage, and minimize duplicate audit efforts;
- Establish professional and administrative policies and procedures to guide the Unit staff and, in relation to professional auditing practice, the internal auditors hired directly by the Centers if relevant;
- Develop and maintain a quality assurance program to evaluate internal audit operations and performance including periodic independent external evaluations;
- Undertake audit assignments within agreed work programs of the Unit’s clients, particularly those more complex and sensitive in nature.

Qualifications

- University level relevant academic qualification; CIA or an appropriate Chartered Accountancy/CPA qualification mandatory; CISA, CISM, CFE, and corporate governance qualifications desirable.
- At least 10 years of progressive experience in planning, conducting and managing internal or external audits; investigations; and/or studies and consultancies related to corporate governance, risk management, organizational development, internal controls and compliance systems, with a significant portion of that experience at an executive level.
