### [Indian ryots get global kudos](#)

[PTI](#) | August 31, 2012 | [0 Comments](#)

A research unearthed, for the first time, the scale at which enterprising farmers are themselves using their own resources innovatively rather than waiting for water to be delivered. Citing examples from West Bengal and Madhya Pradesh, a Stockholm-based water management institute has said that small-scale irrigation schemes could protect millions of farmers from food insecurity [...]
