

**Have you registered for the summit yet? We must give a final count to the hotel on Monday June 10th. Please register NOW if you plan to attend!**

## World Water Summit V

Friday, June 21, 2013

Immediately before the Rotary International Convention

**Breaking News: Kamal Kar, pioneer of Community Led Total Sanitation, has confirmed that he'll address the Summit. Add to that Jack Sim, President of World Toilet Organization, and Chris Holmes, Global Water Coordinator, US AID.**

A world class WASH event! But there's more in it for you and your club:

- How to finance your WASH program when TRF can't
- Managing collaboration with global partners
- Becoming advocates for WASH - building on Rotary's Polio eradication track record
- "Speed Project Fair" - an easy way to find a partner for your project and a project for your club

[Register](#) now while space is still available! Don't miss out on wonderful opportunity to learn how to make your project a sustainable success. Listen to world-class leaders and share your experiences with other Rotarians facing similar challenges.

This program has something for you - whether you are embarking on your first project, or building on wide experience in many cultures. For example:

- Planning for sustainability - a must for Rotarians under the FVP.
- Moving up the Sanitation Ladder - water is critical, but must go hand-in-hand with an effective sanitation strategy.
- Monitoring your project. Long after you've returned home, is it still functioning?

If you are passionate about the plight of the millions of people who don't have access to safe water and sanitation - this is for you! Many of you know of the amazing courage, especially of the women in developing countries. They deal with the daily challenges of long treks for water, children with diarrhoea and the ravages of HIV and debilitating illness. **Learn** how you can make a **REAL difference** in their lives!!!

To see the full Summit program just go to the [REGISTRATION](#) website and click on "Agenda".

## NEW THIS YEAR!

Take part in the first Wasrag Speed Project Fair, an innovative approach to sharing project opportunities! Come and share your project - or find a project for your club. For more details see: [Wasrag Project Fair](#)

Special rates available for Rotaractors/students.

Register [NOW](#) for: **World Water Summit V**

Theme: **Sanitation, Hygiene, Innovation, Trends**
